

LOW VOLTAGE TWINKLING TREE

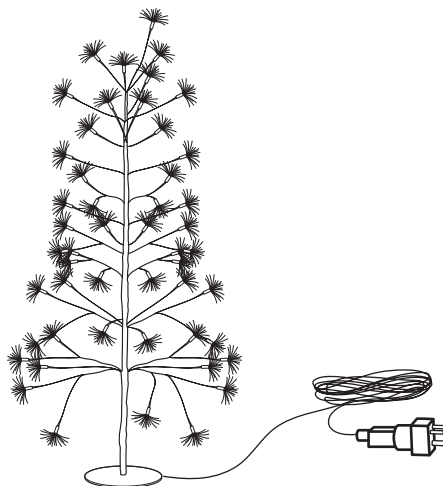

INSTRUCTIONS FOR USE

- 1 Remove the light from the packaging and unroll the cable before use
- 2 Please do not connect this light to the electric lighting system whilst it is still in the box
- 3 The light can only be connected to the transformer, which is enclosed in the box
- 4 The transformer is suitable for indoor use. For outdoor use, the transformer must be contained in a waterproof housing
- 5 Ensure that the power source is the same as the specified power
- 6 The LEDs are not replaceable
- 7 Do not connect this light electrically to another one
- 8 The light power cable cannot be replaced; where breakage or damage to the cord occurs, the light must not be used but disposed of safely
- 9 Avoid any damage to the isolation of the wiring

This light is suitable for indoor and outdoor use.

Please keep these instructions for future reference!
