

LOW VOLTAGE GOLDTWIST GLOBE

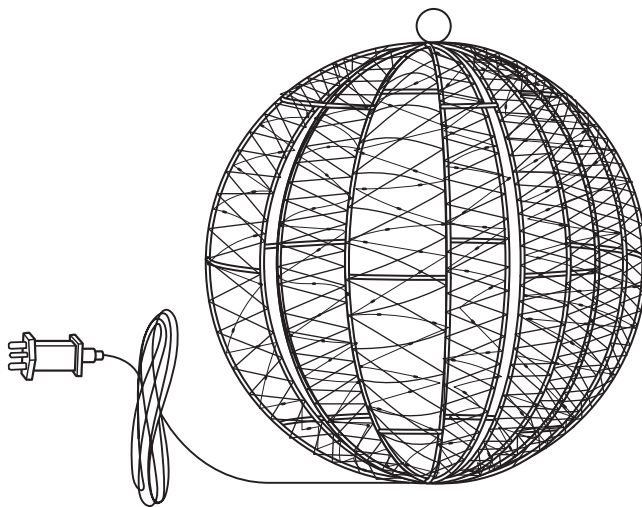

INSTRUCTIONS FOR USE

- 1 Please do not connect this light to the electric lighting system whilst it is still in the box
- 2 The light can only be connected to the IP20 transformer, which is enclosed in the box
- 3 The transformer is suitable for indoor use. For outdoor use, the transformer must be contained in a waterproof housing
- 4 The LEDs are not replaceable
- 5 Do not connect this light electrically to another one
- 6 The power cord of the light cannot be replaced; where breakage or damage to the cord occurs, the light must not be used but disposed of safely
- 7 Avoid any damage to the isolation of the wiring

This light is suitable for indoor and outdoor use

Please keep these instructions for future reference!
